

## Managing H5P activities

The Avenue PBLA modules arrive with H5P learning activities. This document will help you manage these activities in the courseware.

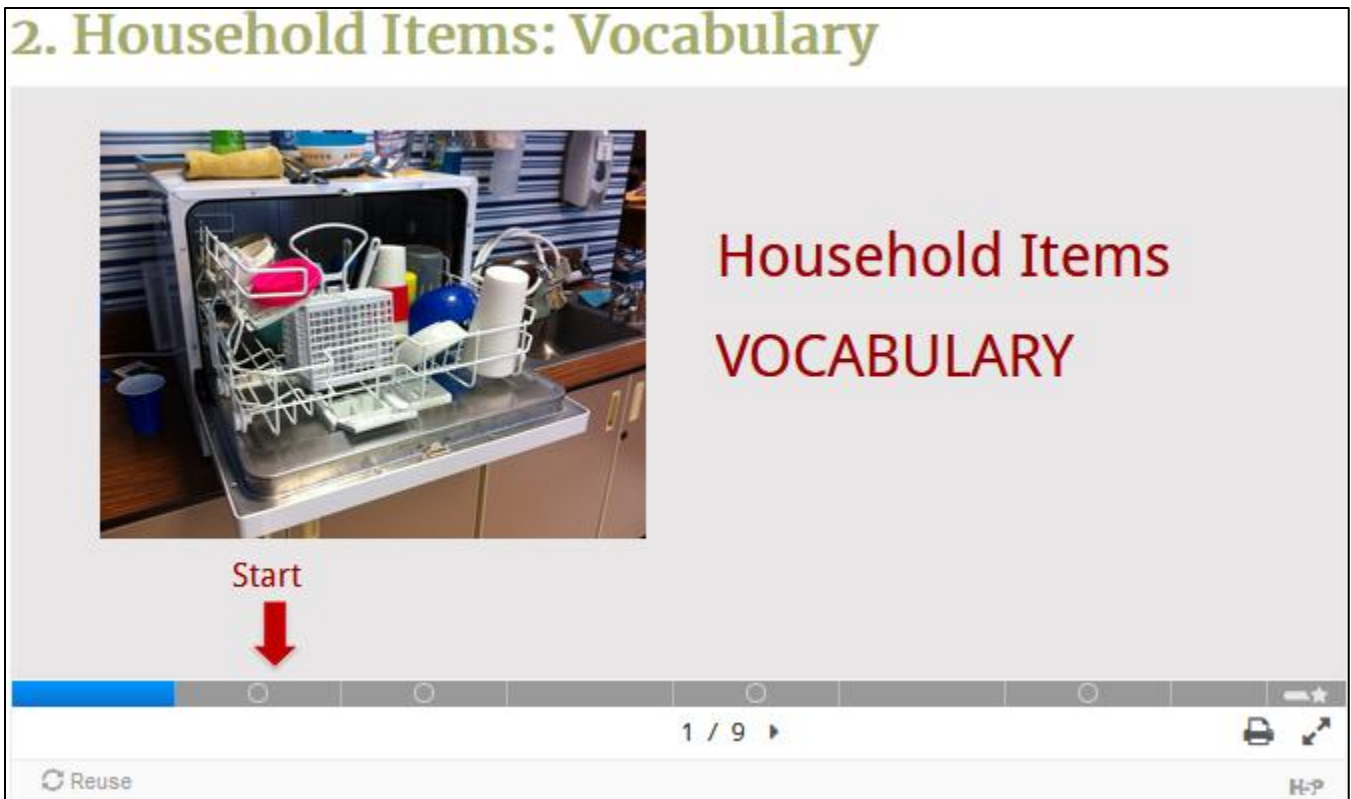

**Note:** This example uses the PBLA module, **Dealing with Household Problems (CLB 3/4)**.

1. The learner clicks on an H5P learning object link.

**Note:** The H5P learning object opens.

 2. Household Items: Vocabulary

2. The Learners click on the **navigation** icon, under the **Start** arrow.

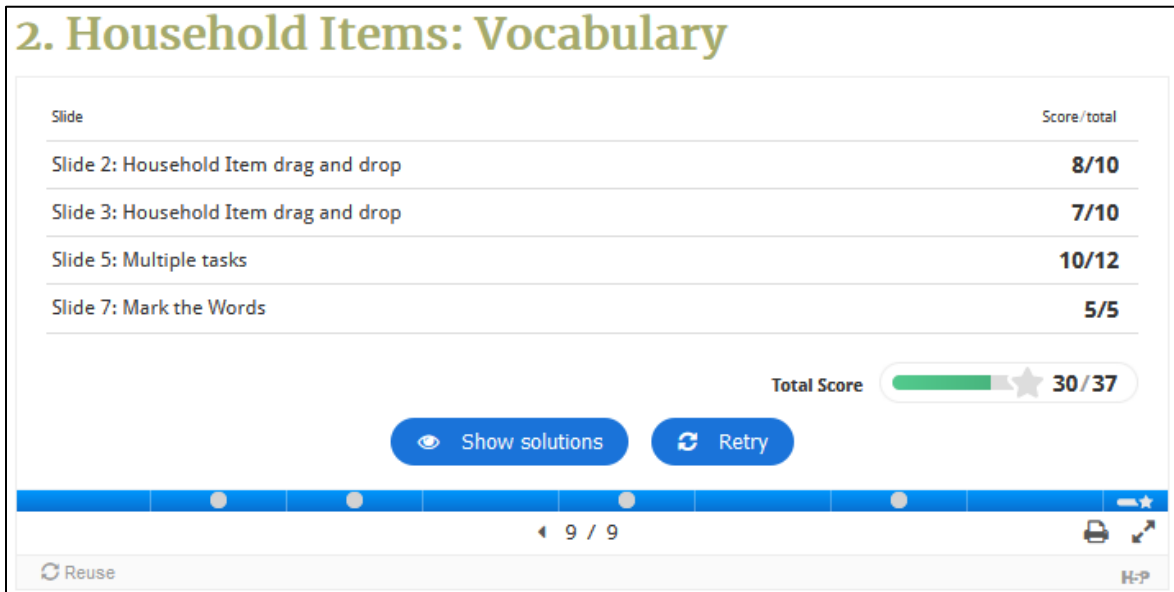

The screenshot shows an H5P activity interface. At the top, the title "2. Household Items: Vocabulary" is displayed in a green, bold font. Below the title is a photograph of an open dishwasher filled with various household items like cups, plates, and a sponge. To the right of the photo, the text "Household Items VOCABULARY" is written in a large, red, bold font. Below the photo, the word "Start" is written in red, with a red arrow pointing downwards. At the bottom of the interface, there is a navigation bar with a blue segment on the left, a progress indicator showing "1 / 9", and icons for printing and sharing. The word "Reuse" is visible in the bottom left corner, and "H5P" is in the bottom right corner.

- The learners attempt the **activities** on each slide. In some cases, they click on the **Check** button to see their score. On other screens, they read the instructions and listen and repeat terms.
- Learners continue moving to the right until they open the **penultimate** slide.  
**Note:** On this slide, learners are prompted to continue to the next slide to ensure that their grades are recorded.

- After the learners have clicked on the last slide icon, the **Summary** slide shows their results.

6. If learners select the **Grades** link in the **Navigation drawer**, their grades appear.

Grade item	Percentage
<b>John's Sandbox</b>	
Filling in an Online Form: Mail Forwarding - Canada Post (CLB 4+) - Getting Things Done	-
2. Household Items: Vocabulary	81.08 %
3. Household Problems: Vocabulary	-

7. Instructors can also click on the **Grades** link in the **Navigation drawer** to check learner grades.

First name / Surname	Email address	John's Sandbox	2. Household Items: Vocabulary
Ahmed Ali	ahmedali@fakemail.ca	-	81.08
Lee Chan	leechan@fakemail.ca	-	-
Eduardo Garcia	eduardogarcia@fakemail.ca	-	-
Maria Guptez	mariaguptez@fakemail.ca	-	-
<b>Overall average</b>		-	81.08
