

Adding a Course Image on Your Dashboard

Adding an image to your course profile provides improved location of the course on your **Avenue Dashboard Course overview** and **Recently accessed courses** sections. Courses arrive with a random coloured patterned image as their default. While these are unique, they are not visually memorable. To ensure that your course has a recognizable image, change your course's **Dashboard image** using the steps below.

Get an Image

1. Locate a **legal image** in landscape format.

Note: Unsplash, <https://unsplash.com>, is a reliable source.

2. On the **Unsplash** web page, type a search key word(s) in the search box.

Note: In this example, it is **learning together**.

3. Click on the **Orientation** link.

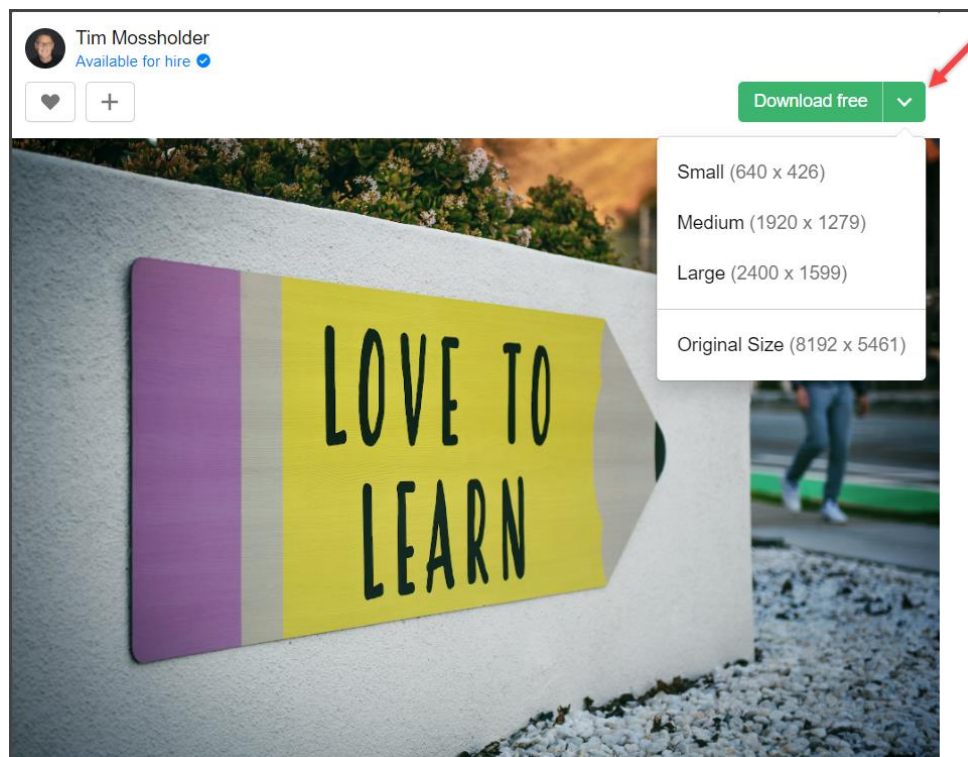

4. In the drop-down menu, choose **Landscape**.

5. Click on (select) an **image**.

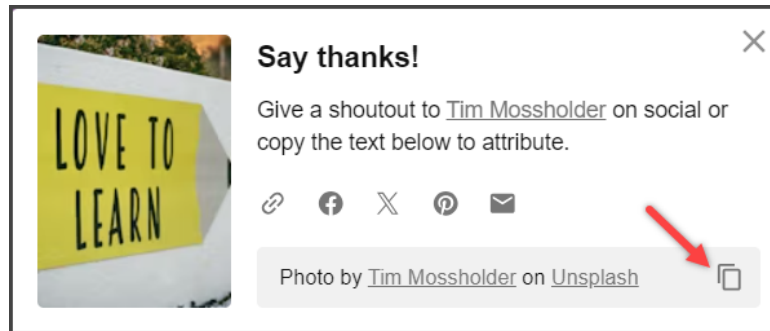

Note: The image downloading pop-up appears.

6. Click on the **Download Free chevron** link.

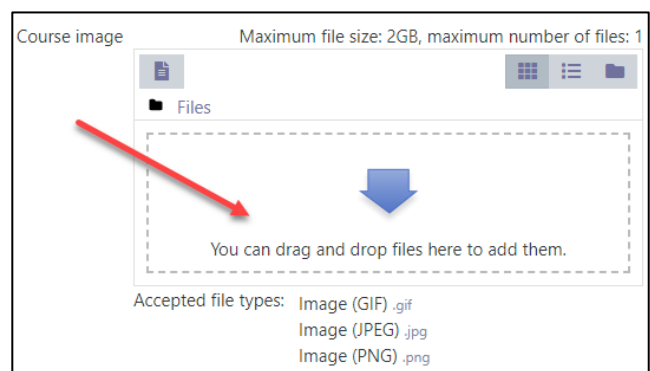

7. Choose the **Small** option.
8. Download the **image** to your computer or device.
9. In the **Say thanks** pop-up, click on the **Copy** icon.

Add the Image to Your course

1. On your course, click on the course **Actions menu**.
2. In the drop-down menu, click on the **Edit settings** option.
3. On the **Edit course settings** screen, scroll down to the **Course image** section.
4. Drag your image file (from step 8) into the **Course image drag and drop box**.
Note: The file name and a thumbnail will appear in the box.

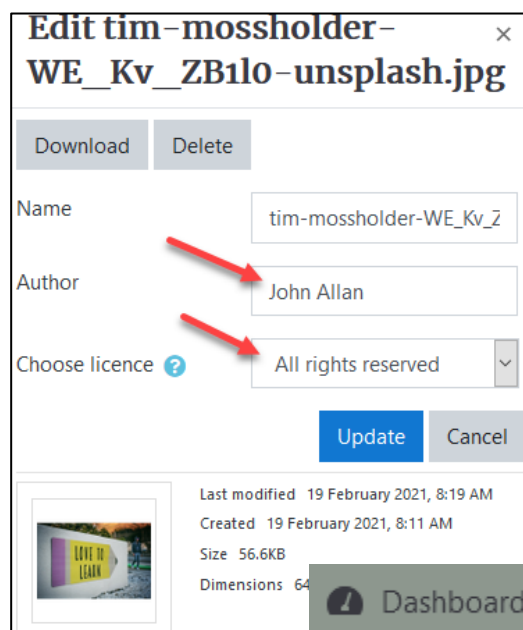

5. Click on the **file name** or **file thumbnail**.

6. An **edit image** pop-up appears.
7. Change the **Author** name and the **license** type.

Note: Paste the name copied from Step 9 in the previous section.

8. Click on the **Update** button.
9. Click on the **Save and display** button.
10. On the **Navigation drawer**, click on the **Dashboard** link.

11. **Note:** Your course now has a unique image.
