

Adding an H5P Activity with the Text Editor

Note: in this activity, we will insert an **H5P** learning object into a Moodle **Page** resource. **Grades will not be recorded in the gradebook for these H5Ps.** There must be **H5Ps** in your course **Content bank** in order to use the text editor **H5P** feature.

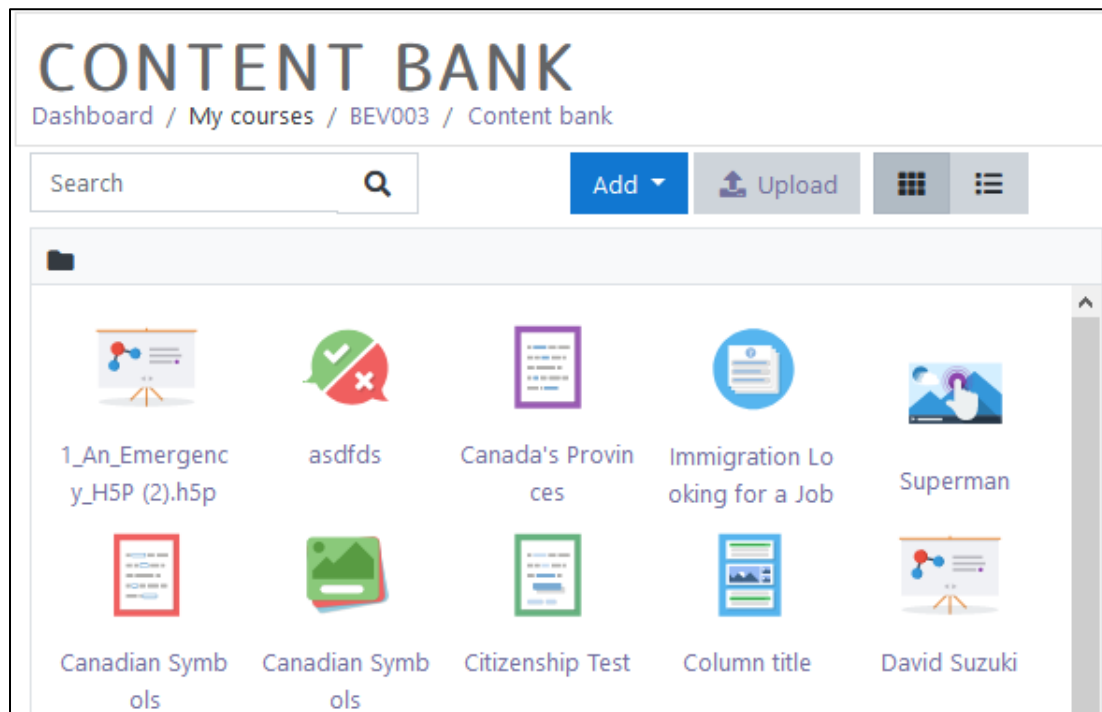

Why insert H5Ps into Moodle tools? Including **H5Ps** for review or extra practice without the consequences of grades may allow learners to focus and repeat activities.

Step-by-Step Instructions

1. Click on the course **Content bank** link in the **Navigation Drawer**.

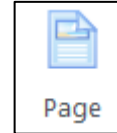

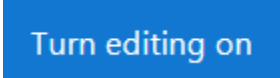

Note: The course **Content bank** appears.

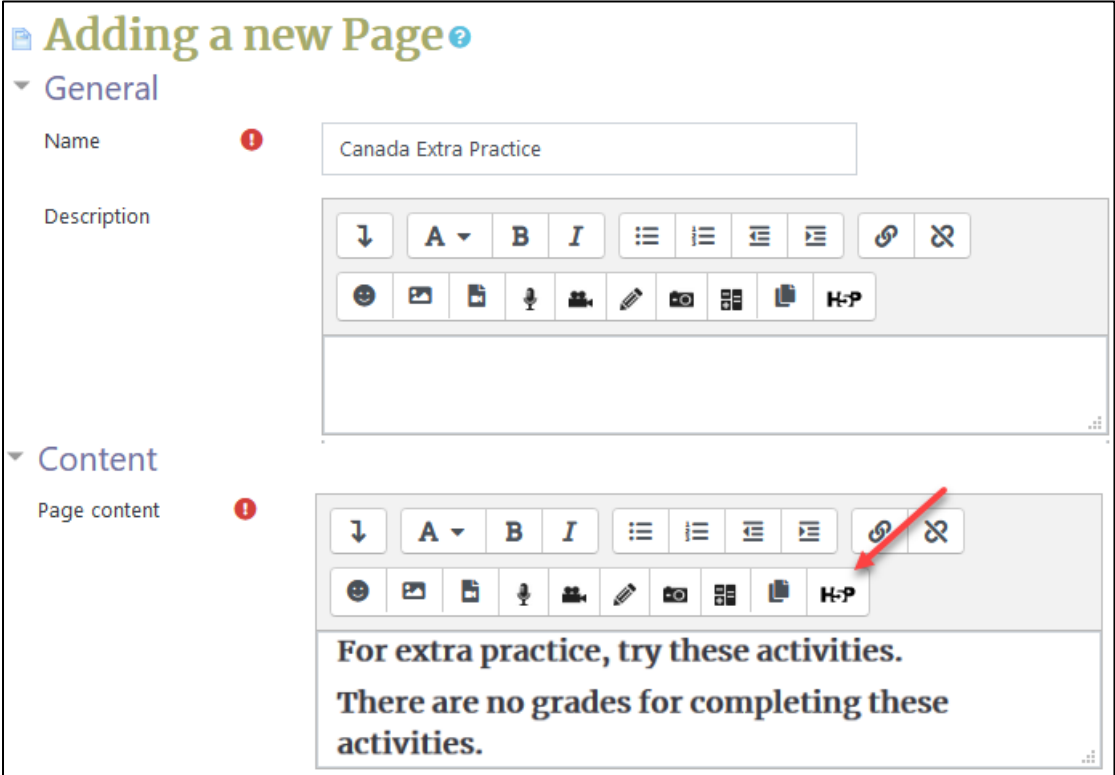

2. Create or identify an **H5P** to be inserted into the course **Page**.
3. Return to the course main menu by clicking on the **course name** in the breadcrumbs menu.

4. On your course, click the **Turn editing on** button.
5. Click the **Add an activity or resource** link in the appropriate topic.
6. The **Add an activity or resource** pop up appears.
7. Select **Page** in the **Resources** tab.

Note: The **Adding a new Page** screen appears.

A screenshot of the "Adding a new Page" interface. The title is "Adding a new Page" with a question mark icon. There are two sections: "General" and "Content".
- In the "General" section, the "Name" field contains "Canada Extra Practice".
- The "Description" field is empty and has a rich text editor toolbar above it.
- In the "Content" section, the "Page content" field contains the text: "For extra practice, try these activities. There are no grades for completing these activities." A red arrow points to the "H-P" (Insert H5P) button in the toolbar above this field.
- There are red information icons (i) next to the "Name" and "Page content" labels.

8. In the **Name** field, type a title for the **Page**.
9. In the content text box, type **directions** for the **H5P** activity.
10. Click on the **Insert H5P** button.

Note: The **Insert H5P** pop up appears.

11. Click on the **Browse repositories...** button.

Insert H5P

You can insert H5P content by **either** entering a URL **or** by uploading an H5P file

H5P URL or file upload

16. **Note:** The **Insert H5P** pop up reappears.

The screenshot shows a dialog box titled "H5P URL or file upload". At the top, there is a text input field containing the URL "https://avenue.ca/classroom/draftfile.php/448/u" and a "Browse repositories..." button to its right. Below the input field is a section titled "H5P options" with a downward-pointing arrow. Under this section, there are three checked checkboxes: "Allow download", "Embed button", and "Copyright button". At the bottom right of the dialog box is an "Insert H5P" button.

17. In the **H5P** options section, choose from:

Allow download to allow others to download this **H5P** file for their courses,

Embed button to provide an HTML embed code so others can link to the **H5P** from your course (not recommended),

and **Copyright button**, to share the copyright information with others.

18. Click on the **Insert H5P** button.

19. Scroll down the page and click on the **Save and return to course** button.

20. Click on the **Turn editing off** button.

21. Locate the **H5P** on the **course main menu** and try it.
