Adding a Local Weather Block to an Avenue Course Page https://youtu.be/o7J_Ig3Ouj8

This Moodle tutorial explains how teachers on the Avenue.ca site can add a local weather block to their course page.

Adding an Image to a Course (Dashboard Thumbnail) <https://youtu.be/9WSUuryYUJ8>

This Moodle tutorial explains how teachers on the Avenue.ca site can add an image to course thumbnail on the Dashboard page. It also demonstrates how to get a free image from the Unsplash.com photo repository.

Embedding a Video in an Avenue Course <https://youtu.be/meryGQxT22g>

This Moodle tutorial explains how teachers on the Avenue.ca site can embed a YouTube video into a course. The tutorial demonstrates embedding a video in a Label and a Page.

Linking Hidden Course Resources or Activities In a Block <https://youtu.be/OSnqD-LY6c>

This Moodle tutorial explains how teachers on the Avenue.ca site can hide activities or resources on a course page and create a link to it from an HTML block. The tutorial also shows how to move the block up the course page, and (optionally) how to add the activity/resource icon next to the link.

Managing an H5P Activity <https://youtu.be/zhti5WJSTIE>

This Moodle 3.10 tutorial explains how teachers on the avenue.ca site can delete an H5P from their courseware. The tutorial demonstrates how to remove an activity from a course page, and how to delete it from the Content Bank.

Sharing and Editing H5P Activities <https://youtu.be/4i5L7ba1Ojc>

This Moodle tutorial explains how teachers on the avenue.ca site can use the Sharing Cart to copy an H5P from one course to another course. It also demonstrates the steps to be able to edit the newly added H5P activity in the course Content Bank.
