

Embedding a Video in a Course

There are various ways to display video on your course. One way is to embed the video in a course resource or activity. These include Assignments, Books, Labels, Pages, Forums, Quiz Questions and in most activity and resource Descriptions. It is recommended that **YouTube** videos are used.

There are two steps to complete this task.

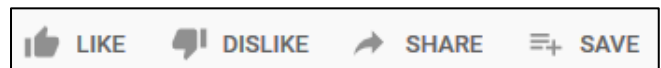

- 1) Acquiring a YouTube video **embed code**.
- 2) Embedding this code into a **Label or a Page**.

Acquiring a YouTube Embed Code

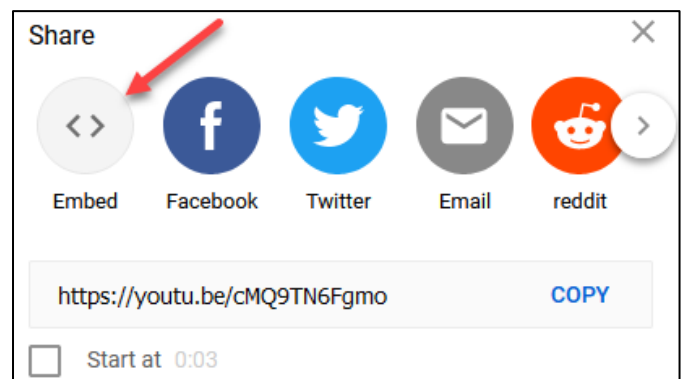

1. Locate a suitable **video** on YouTube.

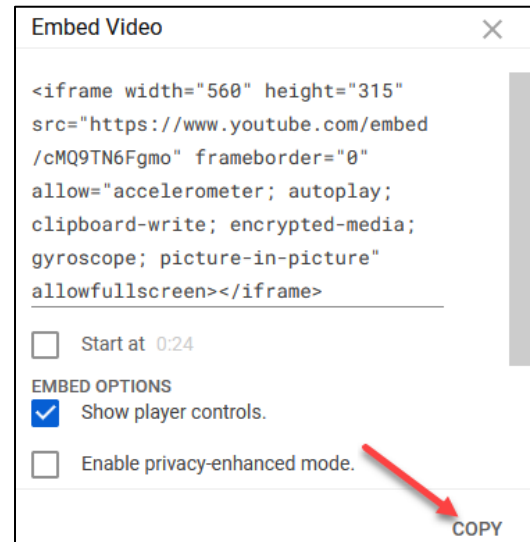

2. Under the video, click on the **Share** link.

3. In the pop up that appears, click on the **Embed** icon.

- The **embed code** appears, choose a **starting point** by entering a time code (optional).

- Choose **Show player controls**.
- Enable privacy-enhanced mode** if required.
- Click on the **Copy** link.
Note: The embed code is now ready to be pasted.

Embedding a Video in a Label

- On your Avenue course, click on the **Turn editing on** button.

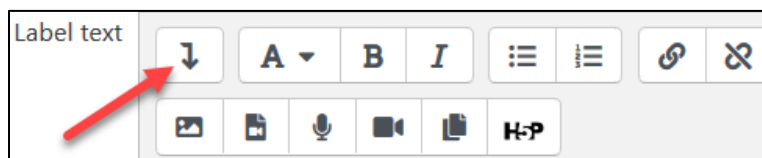

Turn editing on

- Click on the **add activity or resource** link.

- In the pop-up that appears, choose the **Label** icon.

- In the **Label text** area, click on the **Show/hide advanced buttons** icon.

Note: The expanded editing icons appear.

5. Click on the **HTML** icon.

Note: The text area displays **HTML** code.

A screenshot of the HTML editor interface. The toolbar at the top shows the HTML icon (</>) and other icons. Below the toolbar, a text area contains the following HTML code:

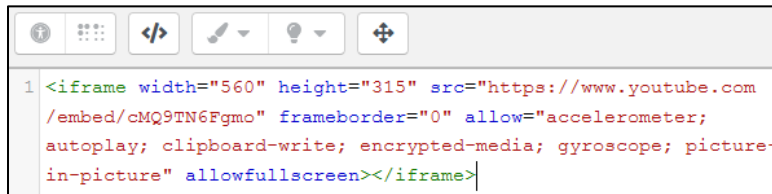

```
1 <p dir="ltr" style="text-align: left;"><br></p>
```

6. Select the **HTML** code.

A screenshot showing the HTML code from the previous step selected in the text area. The code is highlighted in a light blue background.

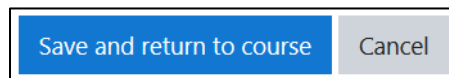

```
1 <p dir="ltr" style="text-align: left;"><br></p>
```

7. Paste the **Embed code** here. (See Step 7 in previous section)

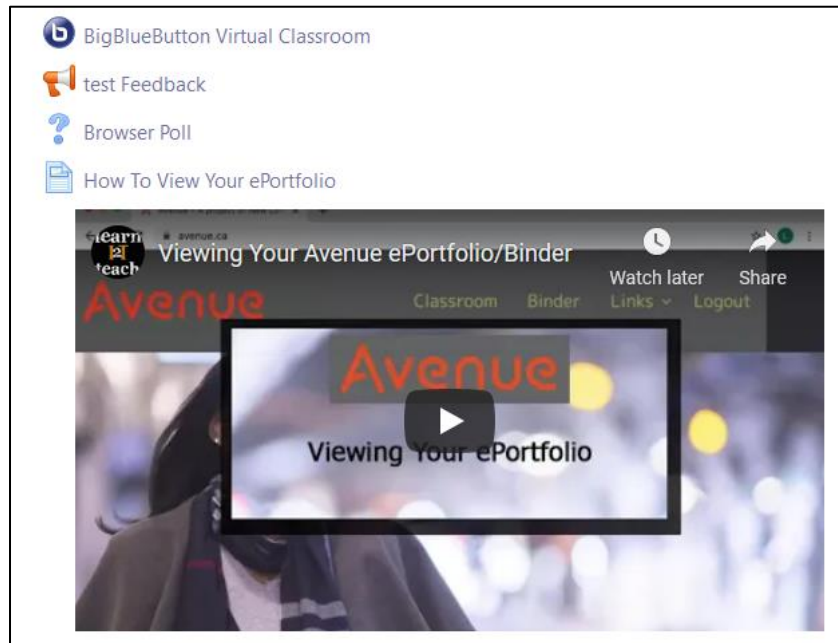

A screenshot of the HTML editor interface. The toolbar at the top shows the HTML icon (</>) and other icons. Below the toolbar, a text area contains the following HTML code:

```
1 <iframe width="560" height="315" src="https://www.youtube.com
/embed/cmQ9TN6Fgmo" frameborder="0" allow="accelerometer;
autoplay; clipboard-write; encrypted-media; gyroscope; picture-
in-picture" allowfullscreen></iframe>
```

8. Click **Save and return to course** to view the **Label**.

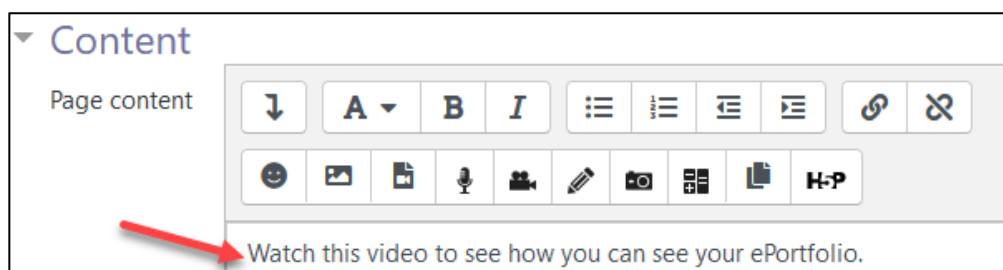

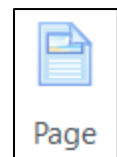

Note: The video is embedded in the **Label** on the course page. The video occupies a lot of space on the screen. An alternative is to embed a video in a courseware **Page**.

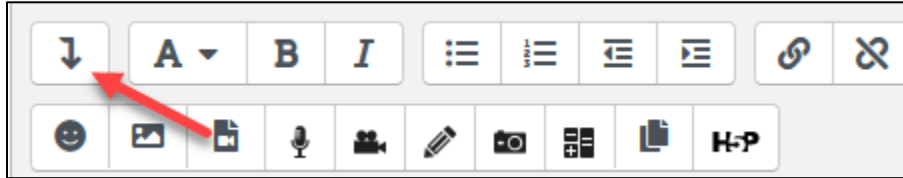

Embedding a Video into a Page

1. On your Avenue course, click on the **Turn editing on** button.
2. Click on the **add activity or resource** link.
3. In the pop-up that appears, choose the **Page** icon.
4. In the **Page content** area, type introductory/instructional text.

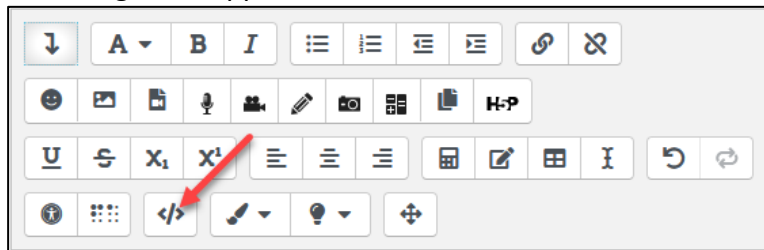

Turn editing on

- Click on the **Show more buttons** icon.

Note: The expanded editing icons appear.

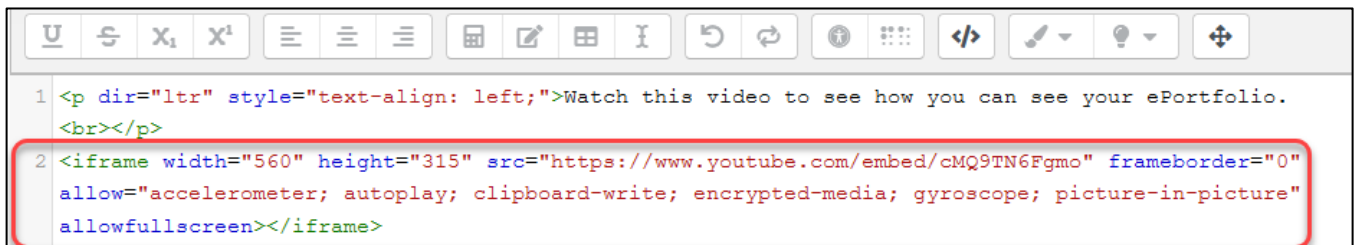

- Click on the **HTML** icon.

Note: The text area displays **HTML** code. Each line of code is numbered.

- Select the **HTML code** in Line #2.

```
1 <p dir="ltr" style="text-align: left;">Watch this video to see how you can see your ePortfolio.
  <br></p>
2 <p dir="ltr" style="text-align: left;"><br></p>
```

- Paste the **Embed code** that you copied from YouTube here.

- Click **Save and return to course** to view the **Page**.

Save and return to course

Cancel

Note: The video is embedded in the **Page** on the course page.

10. Click on the **Page** link.

Note: The embedded video appears in the **Page**.
