Embedding a Video in a Course

There are various ways to display video on your course. One way is to embed the video in a course resource or activity. These include Assignments, Books, Labels, Pages, Forums, Quiz Questions and in most activity and resource Descriptions. It is recommended that YouTube videos are used.

There are two steps to complete this task.

1) Acquiring a YouTube video **embed code**.

2) Embedding this code into a **Label or a Page**.
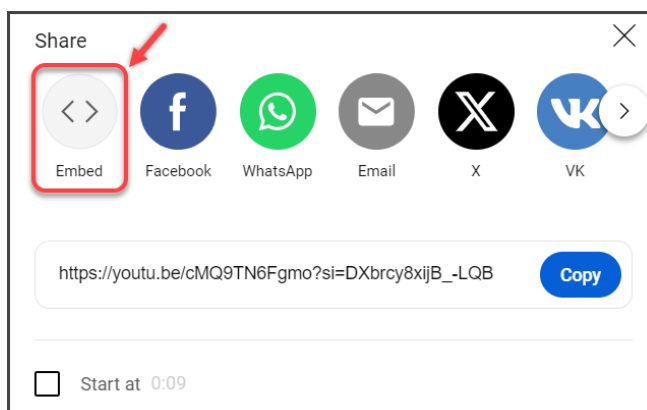

Acquiring a YouTube Embed Code

1. Locate a suitable **video** on YouTube.

2. Under the video, click on the **Share** link.

3. In the pop up that appears, click on the **Embed** icon.

The **embed code** appears, choose a **starting point** by entering a time code (optional).
