

Enrolling a Non-editing Teacher into a Course

Non-editing teacher status can be given to a student teacher, a peer you wish to share with, or an administrator who requires access to your course.

Non-editing teachers can view the course resources, activities, student work and their grades, but they cannot make any changes to the course.

Instructor (non-editing) role is another option which may be useful. For information on it, please see the Help File **Enrolling an Instructor (non-editing) into a Course**.
