

Converting Interactive Content to H5P

Avenue **H5P** learning activities are now called H5P rather than Interactive content as in EduLINC. This change to accommodate the new **Moodle Content bank** which will improve resource sharing. It also supports better tracking of H5P scores, including Multiple attempts, in the Moodle Gradebook. Another new benefit is it supports course Reset if teachers want to reuse the same course.

To convert your existing H5Ps into the new format, follow the steps below.

H5P Conversion Steps

1. Locate and click on the **H5P** activity.
Note: The H5P activity appears.

2. Look for the **Reuse** link in the bottom left corner of the H5P activity.

3. If the **Reuse** link is not shown, go to the **Adding a Reuse (or Download) Button to an H5P** section below.
4. If the **Reuse** link is available, click on the **Reuse** link in the bottom left corner.

5. Click on the **Download as an .H5P file**. If this option isn't available, go to the **Adding a Reuse (or Download) Button to an H5P** section below.

6. Click on the **Save** button to start the download to your device/computer. (This may differ based on your operating system)
Note: The file is now saved to your computer with the file extension **.H5P**.
