The screenshot shows the Avenue software interface. At the top, it says "Showing graded and ungraded attempts for each user. The one attempt for each user that is graded is highlighted. The grading method". Below this are search filters for "First name" and "Surname", each with a dropdown menu. A "Download table data as" dropdown is set to "Comma separated values (.csv)" with a "Download" button. The main area is a table with columns: First name / Surname, Email address, State, Started on, Completed, Time taken, Grade/10.00, Q. 1 /1.25, Q. 2 /1.25, Q. 3 /1.25, and Q. 4 /1.25. Two rows for "Maria Gupte" are visible. The second row is selected, and a "CONFIRMATION" dialog box is overlaid on it. The dialog asks "Are you absolutely sure you want to completely delete these attempts?" and has "Yes" and "Cancel" buttons. A red arrow points to the "Yes" button. Below the table are buttons for "Regrade selected attempts" and "Delete selected attempts". At the bottom, it says "Overall number of students achieving grade ranges".
