

There are multiple glossaries available in your course. Sometimes an instructor may need to import glossary entries into an empty glossary in his or her own course from the **Glossary Repository** found in the Avenue **File picker** panel.

Importing Items into a Course Glossary (XML file)

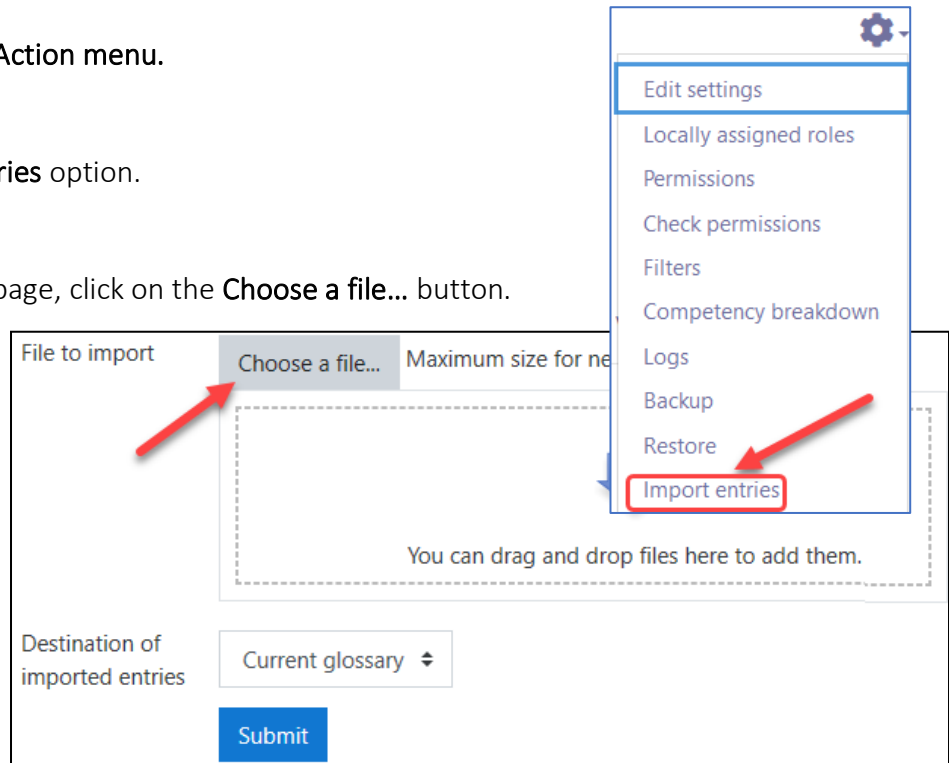

1. On your course, locate and click on a **glossary** link.

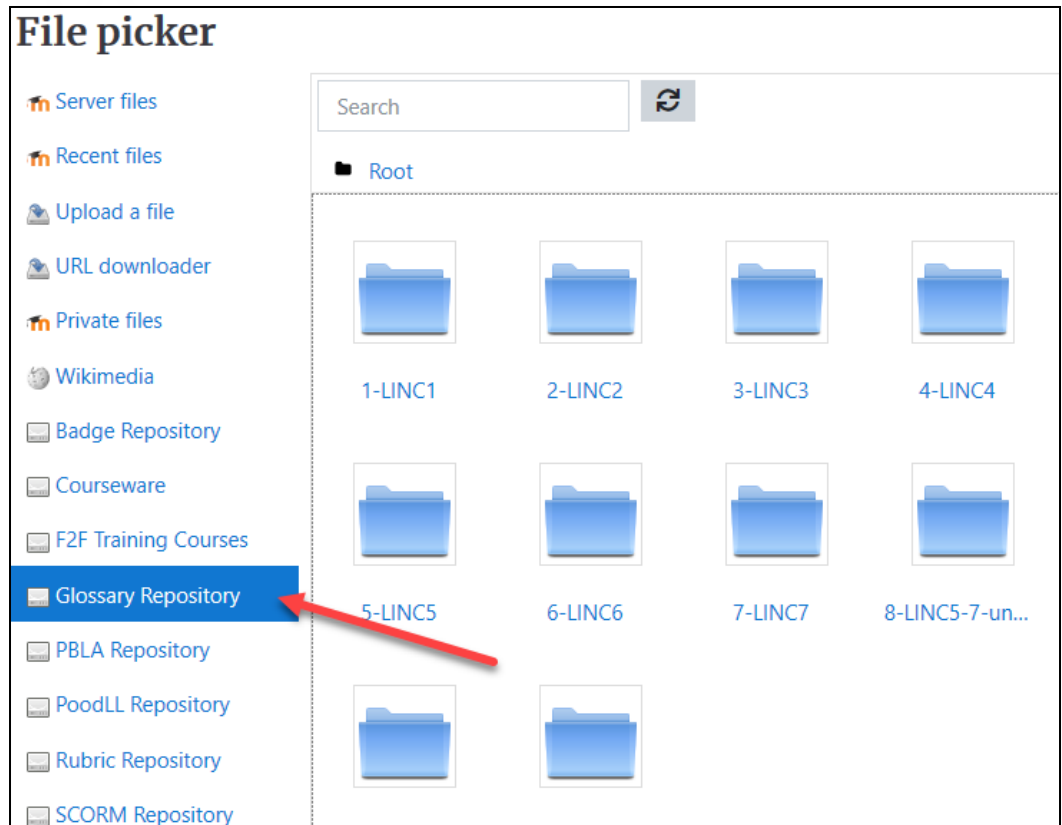

2. The new **glossary** page appears. Note: There are no entries (terms).

3. Click on the glossary's **Action menu**.
4. Choose the **Import entries** option.
5. On the **Import entries** page, click on the **Choose a file...** button.

- In the **File picker**, choose the **Glossary Repository**.

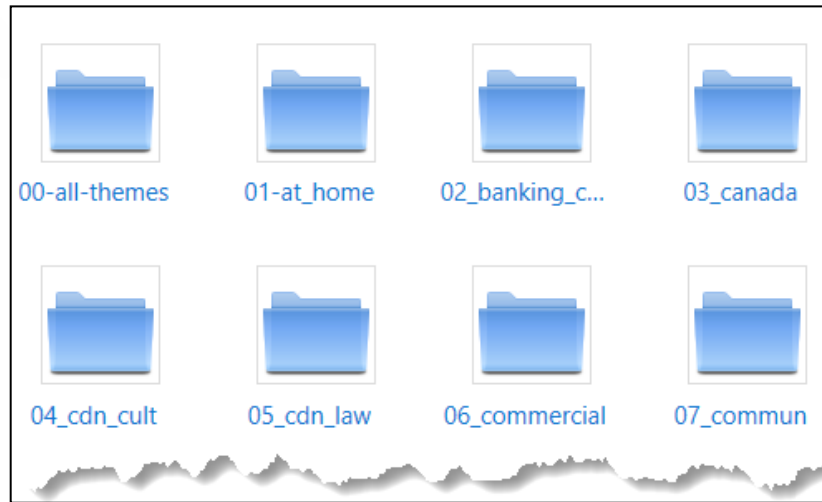

- Select a **LINC level** folder.

3-LINC3

- The available topic glossaries from this LINC level appear as **folders**.

9. Click on a topic **folder**. (in this example, the 00-all-themes folder)

10. Click on the XML file that appears.

11. Click on the **Select this file** button on the pop-up.
