Remove an H5P from the Content Bank

Deleting an **H5P** from the **Content Bank** permanently removes the **H5P**. If you want to remove the **H5P** from the course main page but still keep it for future purposes, simply remove the **H5P** link on the course main menu. It will still be retrievable for future use in the **Content bank**.
To remove the **H5P** learning object from your course, you must remove it from the course main menu and the course **Content Bank**.

Removing the H5P link from the Course Main Page

1. On your course, click on the **Turn editing on** link.

2. Click on the **Edit** link, beside the **H5P**.

3. Click on the **Delete** option.

4. In the **Confirm** pop-up, click on the **Yes** button.
   Note: The **H5P** disappears from the course main menu.

Removing an H5P Learning Object from the Content bank

1. In the **Navigation drawer**, click on the **Content bank** link.

   Note: The **Content bank** displays.

Note: Use either the **Search** box, the **Display icons, Display details**, or the column headings sorting to locate your **H5P** file.

2. Click on the **H5P** file to be deleted in the **Content bank** list.

Note: The **H5P** file appears in editing mode.

3. Click on the **Actions menu**.

4. In the drop-down menu, click on the **Delete** option.

5. In the **Delete content** confirmation pop-up, click on the **Delete** button.

Note: The **H5P** will is removed from the course **Content bank** permanently.
