

Setting up student Self enrolment with an Enrolment key

For students who already have Avenue accounts, it is possible to have them enroll themselves into their new course. This gives them more autonomy and can result in less work for the teacher if there are many students to add to the new course. It requires more effort on the students' part, and may not be suitable for all groups of students.

1. Click *Participants* in the **Navigation Drawer** on the top left.

2. Click **Enrolment methods** in the **Actions menu** at the top right.

The **Enrolment methods** page appears.

- Click the **Enable** icon  next to **Self enrolment (Student)** in the **Edit** column.

Name	Users	Up/Down	Edit
Manual enrolments	6	↓	   
Guest access	0	↑ ↓	  
Self enrolment (Student)	0	↑	  

Self enrolment (student) is active. The **Enable** icon changes to a **Disable** icon.

NOTE: At this point, any user on avenue.ca can enroll themselves into this course. Adding an enrolment key allows a teacher to keep the course private and secure.

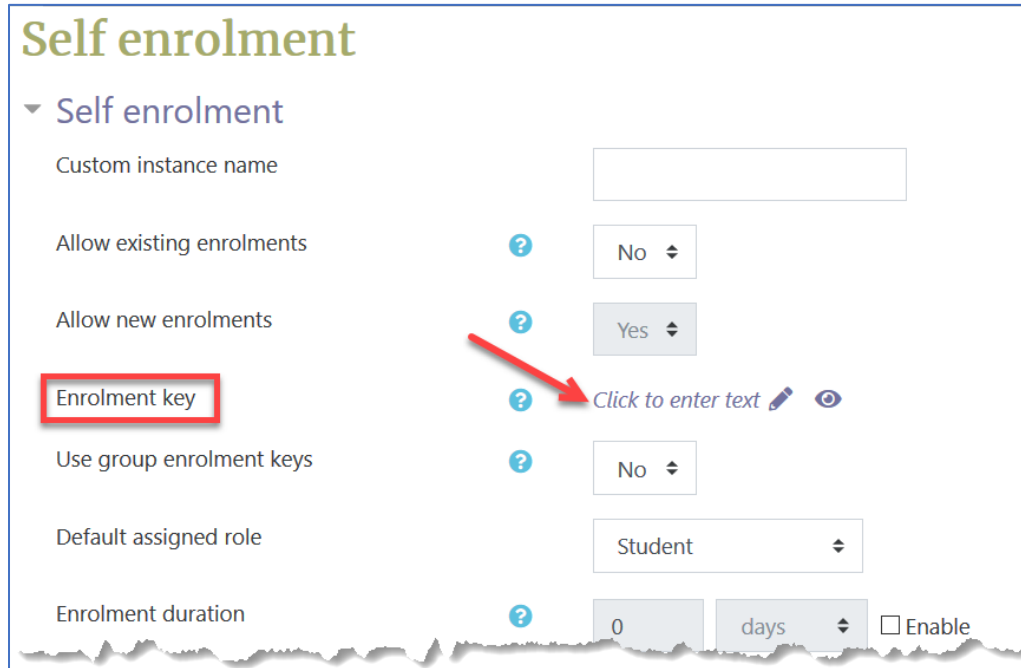

- Click the **Edit** icon  next to **Self enrolment (Student)** in the **Edit** column.
