

## Adding a Realtime Quiz

The **Realtime Quiz** activity module enables students to participate in timed online quizzes with their classmates, both racing the clock and challenging themselves with their peers. Because these quizzes are synchronous (or in real time), participants need to be logged in at the same time to participate. **Realtime Quiz** sessions can be a fun way to review material and engage learners with the content in a game-style activity.

## Using the Realtime Quiz Activity to Enhance Learning

**Realtime Quiz** activities provide students with an opportunity to interact with the teacher, each other, and the material in a fun and engaging way. This may be especially useful for material review, discussion starters, or even real time polls. Teachers can create questions that include text, audio, video, hyperlinks, and images, making the **Realtime Quiz** as challenging as is necessary. Teachers can also review the results of a session to identify areas of concern or of class strengths.

## Step-by-Step Instructions to Add the Realtime Quiz Activity

1. On your course, click the **Turn editing on** button.
2. Click the **Add an activity or resource** link in the appropriate.
3. The **Add an activity or resource** pop up appears.
4. Select **Realtime quiz** in the **Activities** tab.

A blue rectangular button with the text "Turn editing on" in white.

The **Adding a new Realtime quiz page** appears.

Settings in the **General** section are used to set the general information about the activity.

5. Type a descriptive name in the **Realtime quiz** text box.
6. Type a description of the assignment in the **Introduction** text box.
7. To display the description on the course home page, select **Display description** on course page. To keep the page less cluttered this is not recommended.

A screenshot of a web form titled "Adding a new Realtime quiz". The form has a "General" section with a "Realtime quiz" text box and an "Introduction" text box. The "Introduction" box has a rich text editor toolbar with icons for bold, italic, list, link, and other formatting options. At the bottom, there is a checkbox labeled "Display description on course page" with a blue question mark icon.

- In the **Realtime quiz settings**, the **Default question time** is set to 30 seconds. This can be changed here in the settings for all questions and can be changed for each individual question when editing the quiz.

▼ Realtime quiz settings

Default question time

- Settings in the **Common module** section are common to many Moodle activities and resources.
- The **Availability** setting is used to **Show/Hide** the activity. This is identical to using the **Show/Hide** icons when the Turn editing on function is enabled on a course home page.

▼ Common module settings

Availability

ID number

- The **ID Number** setting sets an ID number for advanced use of the grade book. (This is not used in the LINC courseware.)

Settings in the **Restrict access** section can be used to limit access to the activity. (More information is available in the **Setting up and Using Restrict Access Settings** section of the Stage 3 **Course Management** section.)

▼ Restrict access

Access restrictions

- Click on the **Add restriction...** button to display the **Add restriction** pop up.

### Add restriction...

Activity completion	Require students to complete (or not complete) another activity.
Date	Prevent access until (or from) a specified date and time.
Grade	Require students to achieve a specified grade.
Group	Allow only students who belong to a specified group, or all groups.
Grouping	Allow only students who belong to a group within a specified grouping.
Mobile app	Require students to access (or not access) using the Mobile app.
Password	Require students to enter a password.
User profile	Control access based on fields within the student's profile.
Restriction set	Add a set of nested restrictions to apply complex logic.

13. Settings in the **Activity completion** section are used to set completion tracking, grading options and the expected completion date. (More information is available in the **Completion Tracking** documentation in the Stage 3 **Course Management** section.)

#### Activity completion

Completion tracking

- Do not indicate activity completion
- Students can manually mark the activity as completed**
- Show activity as complete when conditions are met

Expect completed on       Enable

The **Tags** sections can be used to add keywords to the assignment.

14. When everything is ready with the settings, select **Save and display** to add the new **Realtime Quiz** activity and begin adding questions.

## Adding Questions to a Realtime Quiz Activity

1. On the **Realtime Quiz** activity page, there are three tabs. On the **Edit quiz** tab, click on the **Add question** button to begin.

2. Type the **Question text** and add audio files, images, videos, or hyperlinks as necessary.

- The **Question time (0 for default)** is set for all questions on the **Edit settings** page for the **Realtime Quiz**. To change this timing for each individual question, type in this field the number of seconds students will have to answer.

Question time (0 for default)

- Use the radio buttons to select the correct answer (highlighted in green) or select the **No 'right' answer** radio button, then add the text for learners to select. Add as many incorrect choices as necessary, use the **Add space for 3 more answers** button to increase the number of fields.

Answer 1  environmental activist

Answer 2  politician

Answer 3  businessman

Answer 4  reality star

No 'right' answer

Add space for 3 more answers

- Click on the **Save question** or **Save question and add another** button to continue.
- After adding all the questions necessary, the **Edit quiz** tab will display the question text and icons to move or delete questions in the **Realtime Quiz**.

## Questions in this Realtime quiz:

1. David Suzuki is a(an) \_\_\_\_\_ ↓ 🗑️
2. David was born in \_\_\_\_\_ ↑ ↓ 🗑️
3. David is the father of \_\_\_\_\_ children. ↑ 🗑️
