

## Tutela Resources: Advanced Search to locate SCORM Objects

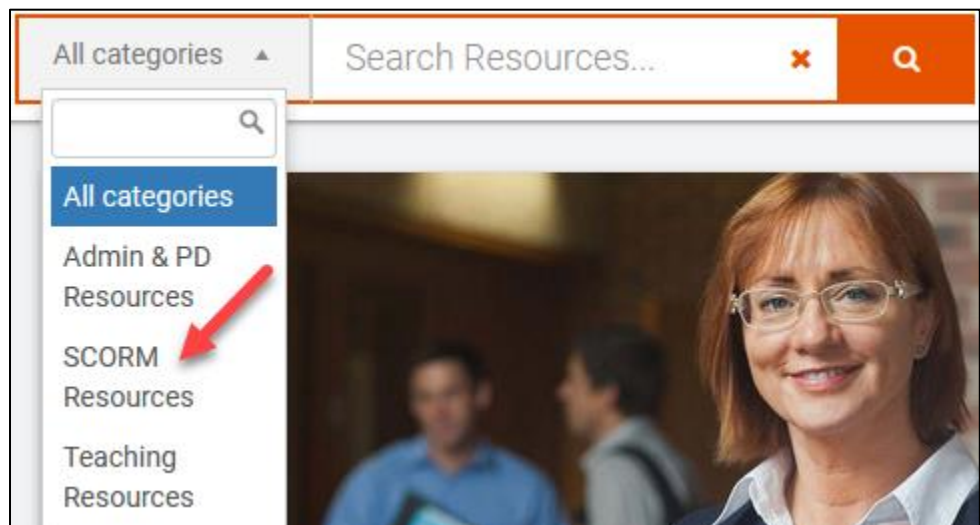

This document explains how to use Tutela's advanced search functions to locate SCORM resources.

### Finding a SCORM object using the Advanced Search

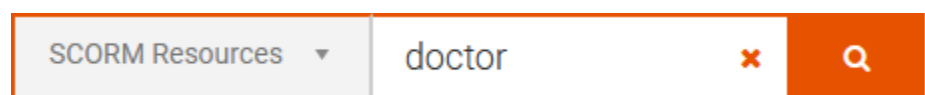

1. Click **Resources** in the Tutela main menu.

2. In the search bar, click on **All categories**.
3. In the drop-down menu, click on the **SCORM Resources** option.

4. Enter **keyword(s)** in the search bar.  
**Note:** These keywords can be a subject of interest, a title of a resource or a type of resource.

5. Click on the **search** button to view the results

**Note:** A listing of SCORM objects appears (if there are any that match the search term).

The screenshot shows a search interface for 'SCORM Resources' with the search term 'doctor'. The search button is highlighted. Below the search bar, there are filter options: 'PBLA Only' (unchecked), 'All Themes', and 'All Levels'. The results section shows 'Results 1 - 10 of 11'. A red box highlights '11 SCORM objects' and another red box highlights 'SCORM Objects details'. The first result is 'The Doctor's Message', dated Dec 15, 2017, 01:33 AM +03. It includes a description: 'This listening based on a voice mail greeting at a doctor's office. The activities in this package include listening comprehension, audio gap fills and spelling practice.' There are 0 likes and 0 comments. A 'View' button is present. The second result is 'Going to the Doctor', dated Dec 08, 2015, 09:51 PM +03.

6. Refine the results by checking the **PBLA Only** checkbox.

**Note:** The result is 2 PBLA related SCORMS for doctor.

Filters:  PBLA Only

The screenshot shows the same search interface as above, but with the 'PBLA Only' checkbox checked. The results section now shows 'Results 1 - 2 of 2'. A red box highlights '2 SCORM objects'. The first result is 'CLB2 - At the Doctor's Office - LINC - 2017', dated Dec 05, 2017, 05:36 PM +03. The author is 'Nowar Habash'. The description is: 'Meeting the doctor can be one of the most challenging encounter a newcomer to Canada can face. This SCORM allows learners to listen to a simple doctor-patient meeting. It tests learners...'. There are 0 likes and 1 comment. A 'View' button is present.

7. Uncheck the **PBLA Only** checkbox.
8. Choose a **Theme** from the All Themes drop-down menu.  
**Note:** In this example, the theme **Health and Safety** is selected. There are 8 related SCORMs.

The screenshot shows a search interface for SCORM Resources. The search term is 'doctor'. The filters are set to 'PBLA Only' (unchecked), 'Health and Safety' (selected), and 'All Levels'. The results show 8 SCORM objects. The first result is 'The Doctor's Message', dated Dec 15, 2017, 01:33 AM +03. It includes a description: 'This listening based on a voice mail greeting at a doctor's office. The activities in this package include listening comprehension, audio gap fills and spelling practice.' There are 0 likes and 0 comments. A 'View' button is present.

9. To further refine this search, select **CLB 04** in the All Levels drop-down menu.  
**Note:** This **advanced search** results in 4 SCORMs.

The screenshot shows the same search interface as above, but with the 'All Levels' filter set to 'CLB 04'. The results now show 4 SCORM objects. The first result is 'Going to the Doctor', dated Dec 08, 2015, 09:51 PM +03. It includes the author 'Alice Xie' and a description: 'This learning object is designed to help LINC2 learners understand everyday English on the topic of SEEING A DOCTOR and practise easy English conversation at a doctor's office. Learners can improve...'. There are 0 likes and 0 comments. A 'View' button is present.

10. Now that the search has been refined by using Advanced search tools, the instructor has a reasonable number of **SCORMs** to preview.
