

Tutela Resources: Advanced Search to locate H5P Objects

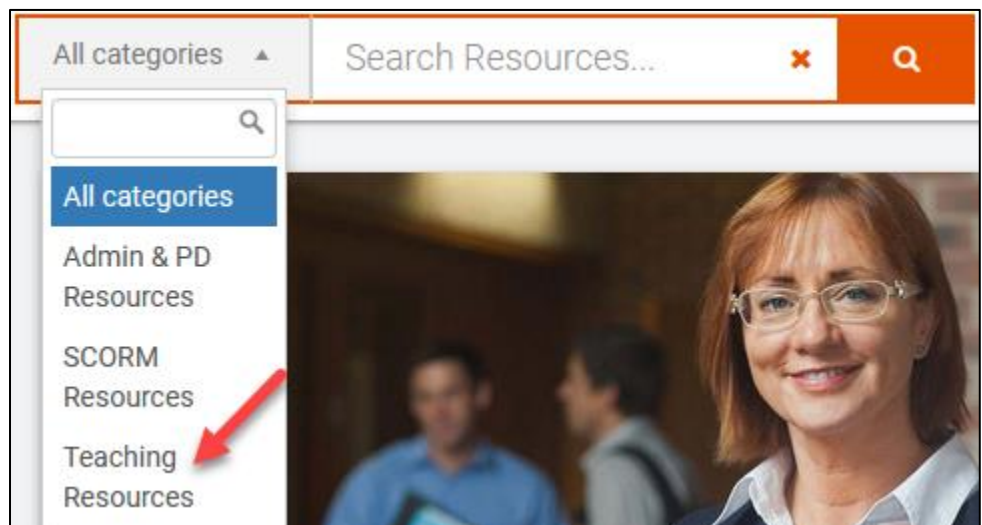

This document explains how to use Tutela's advanced search function to locate H5P resources.

Finding an H5P object using Advanced Searching

1. Go to **Tutela.ca**.
2. Log in to **Tutela**.
3. Click on the **Collections** link in the main menu.
4. Click **Resources** in the Tutela main menu.

5. In the search bar, click on **All categories**.

6. In the drop-down menu, click on the **Teaching Resources** option.
7. Type **H5P** in the search bar.

8. Click on the **search** icon to view the results.

9. A listing of **H5P objects** appears (if there are any that match the search term).

Note: In this example a general search for H5P results in 71 H5Ps.

10. Refine the results by checking the **PBLA Only** option.

Note: There are only 2 PLBA related H5P learning objects. (see image on the following page)

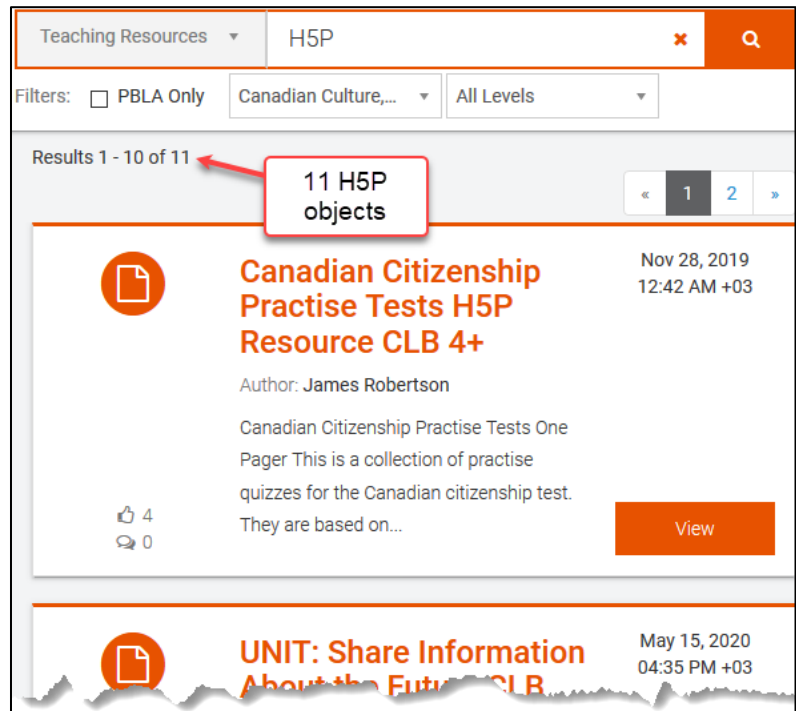

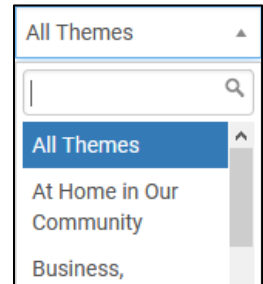

11. Uncheck the **PBLA Only** checkbox.

12. Choose a **Theme** from the All Themes drop-down menu.

Note: In this example, the theme **Canadian Culture** is selected. There are 11 H5Ps related to Canadian Culture, Society, and Multiculturalism.

13. To further refine this search, select **CLB 05** in the All Levels drop-down menu.

Note: This **advanced search** results in 9 H5Ps.

14. Now that the search has been refined by using Advanced search tools, the instructor has a reasonable number of H5Ps to preview.
